

Covid-19 Safety Plan

Social Distancing

Floor plans, aisle widths, room capacities, and service provider practices will be reviewed regularly to ensure compliance with government and social distancing guidelines.

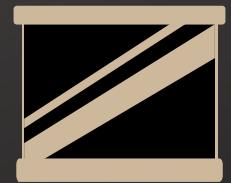

Crowd Control

One-way aisles and entry/exit points will be clearly marked to help manage traffic. Visible directional signage will assist in crowd direction.

Restrooms

Controls and restrictions will be put in place to ensure capacity levels are not breached. Visitors will be directed towards facility restrooms with touchless fixtures.

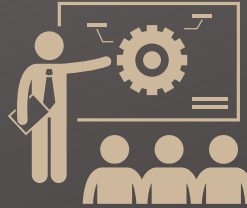

Protective Barriers

Protective barriers will be installed where social distancing guidelines cannot be maintained.

Point of Sale Transactions

Contactless point of sale transactions will be strongly encouraged throughout the building; cash will be discouraged

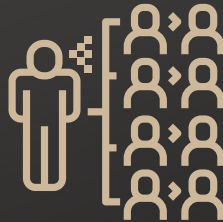

Employee Training

All employees will receive training on pandemic prevention practices in order to protect themselves and all other building users. This includes customer service while social distancing & proper sanitization techniques.

Masks

Masks are mandatory inside public facilities at this time.

Facility Cleanliness & Hand Sanitizer Stations

Hand sanitizer stations will be placed throughout the facility and before, during, and after an event staff will sanitize all equipment and common areas.

Contact Tracing

Contact tracing will be the responsibility of the client and will be required.

Food & Beverage

No food and beverages allowed at this time
